 **LUTRON**®

With Lutron, light is more than simply “on” and “off.”

It's about exploring the space between those levels.

Light inspires.

Transform rooms at the touch of a button. Whether you're entertaining guests or having a romantic dinner for two, you can easily create the perfect ambiance.

seeTouch® keypad in green glass faceplate

Light can awaken  
your senses to color.

Avoid fumbling for a light switch with an occupancy/  
vacancy sensor. Sensors automatically turn lights on  
when you walk into a room and off when you leave.

Maestro® C-L® sensor dimmer in Biscuit

Light can envelop a space  
in warmth.

Adjust lights, shades, and other devices from anywhere  
inside your home with a tabletop or wall keypad.

seeTouch® tabletop keypad in Midnight

It can also exude a cool air of sophistication.

Blend in lighting controls and accessories—such as outlets and cable jacks—with a room's décor, by choosing from nearly 50 colors and metal finishes.

Lutron brings to light...

Protect furnishings and fine artwork from harsh UV rays with automated shades. Our shades raise and lower simultaneously, with minimal, symmetrical light gaps, to maintain uniformity within your design.

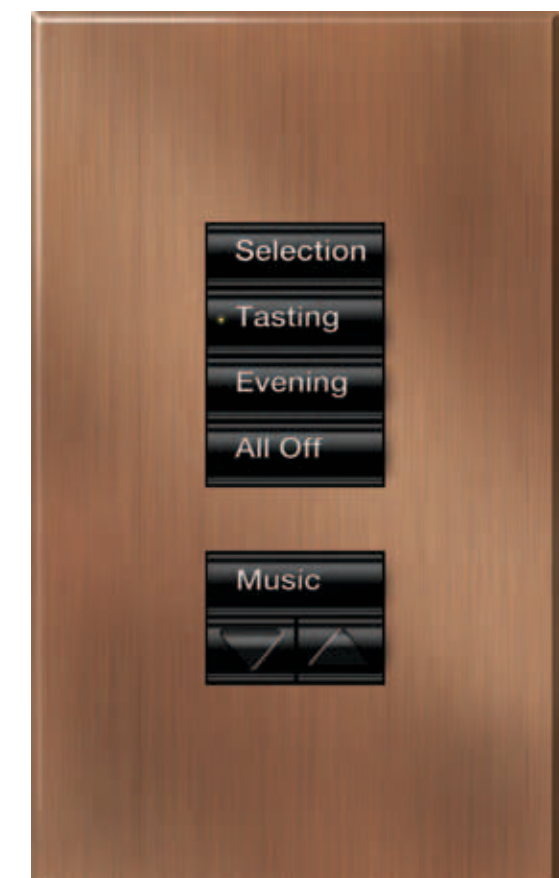

Pico® wireless control in Black

intricate details,

Accentuate architectural features and highlight collections with just the right light, which you can easily change for any activity.

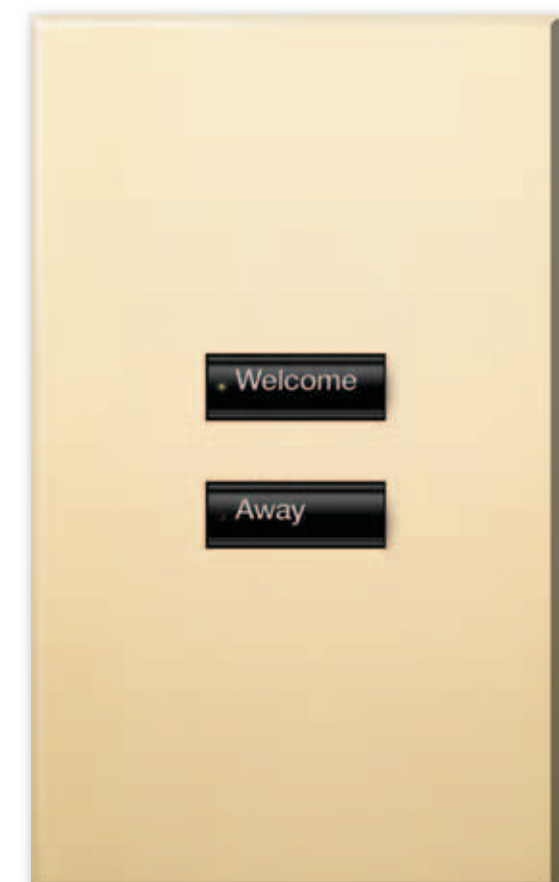

Architectural seeTouch® keypad in Antique Bronze

architectural masterpieces,

Intuitively control lights with customizable keypads that eliminate the need for multiple switches.

Architectural seeTouch® keypad in Bright Brass

and flawless design.

Easily adjust lights, shades, and even small appliances from anywhere within a space without the need to run new wires.

When you choose Lutron,

Stay in touch with your home, wherever you are, with the Lutron Home Control+ app. Conveniently turn the heat on before you arrive home, or make sure you remembered to turn your lights off.

Home Control+ app

you make a statement

Put temperature control where it makes sense in an easy to use, aesthetically pleasing design. With seeTemp®, you can conveniently set the temperature back and save energy simply by pushing the “eco” button.

seeTouch® keypad and seeTemp in  
Midnight with Stainless Steel faceplate

by showcasing your design

Pair fashion with technology by incorporating automated shades into your design. We offer thousands of fabric choices in a wide variety of window treatment styles, as well as custom printing and customers own material.
